Description:	<p>Conduction of training, lectures and presentation for Johanniter International Assistance, Malteser International, Caritas Switzerland, BORDA, arche noVa, Foundation St. Barbara, Konrad-Adenauer-Foundation, University for Applied Science Rüsselsheim, University for Applied Science Bremen, University Bremen, Jacobs University Bremen etc.</p>

Date:	06/2025 – on going
Location:	Germany, South Africa, Tanzania, Zambia, Jordan, Moldova, Albania and Ukraine
Company:	Freelancer: Madiba Consult GmbH
Position:	Evaluator
Description:	<p>Central Project Evaluation (GIZ) of the project “Platform for operators to strengthening partnerships of municipal businesses in the water sector worldwide”. In many German partner countries, municipal utilities that provide public goods and services such as water and waste disposal are in a poor economic situation. As a result, their service provision is unreliable or does not reach the entire population. In view of climate change, growing cities and digitalisation, utilities in Germany and its partner countries face similar challenges in continuing to provide their services. The main objective of the project is to promote close exchange between German utilities and companies in the partner countries on corporate management and the operation and maintenance of facilities. Technical advice, mutual visits, job shadowing, virtual meetings and the procurement of technology formed the core of the cooperation between the companies. In this context, an evaluation is carried out after the end of the project, based on OECD-DAC criteria as well as GIZ's evaluation system.</p> <p><u>Scope of works:</u> Major steps are:</p> <ul style="list-style-type: none"> - Inception Phase: Meeting project team, formulation of results hypotheses, SMART analysis of indicators, check of data availability, definition of basis for evaluation, identification of relevant project partners, update of stakeholder map, collection of evaluation questions and elaboration of inception report - Evaluation Phase: data collection (interviews, reports etc.), analysis, triangulation, assessment and systematically validation and elaboration of evaluation report - Post-Evaluation Phase: Preparation and delivery of presentation, finalisation of the evaluation report and executive summary
